

# DAC2 Control Panels

## Submittal Data Sheet

### Applications:

Adenus Technologies DAC2 Control Panels are used to control duplex pump systems and alarms as specified in onsite duplex pump systems and commercial STEP systems.

### General Information:

Adenus Technologies DAC2 Control Panels are specifically engineered for duplex pump systems or commercial systems. Standard features include seven 1/2" conduit adapters, pump circuit breakers (20 amps), controls circuit breaker (10 amps), an AUTO/OFF/MANUAL toggle switch for each pump, and an audio/visual alarm for high- and low-level water conditions. All Adenus Technologies Control Panels are manufactured by Adenus Technologies and are designed for use with float switches.

The DAC2 panel from Adenus Technologies offers high- and low-level alarms, pump on/off, and redundant off indicators. With its sound construction and simple installation, the DAC2 Control Panel from Adenus Technologies is the perfect controller for your duplex pump or commercial STEP systems.

### Standard Features:

<b>Feature:</b>	<b>Specification(s):</b>
Pump Circuit Breaker	20 amps, OFF/ON switch. Single pole 120 VAC, DIN rail mounting with thermal magnetic tripping characteristics.
Controls Circuit Breaker	10 amps, OFF/ON switch. Single pole VAC. DIN rail mounting with thermal magnetic tripping characteristics.
Toggle Switch	Single pole, double-throw HOA switch. 20 amps, 1 hp.
Audio Alarm	95 dB at 24", warble-tone sound
Audio Alarm	120 VAC, automatic reset. DIN rail mount
Silence Relay	
Visual Alarm	7/8" diameter red lens, "Push to Silence." NEMA 4X, 1 watt bulb, 120 VAC
Padlock Latch	Constructed of non-corrosive stainless steel (2)
Elapsed Time Meter	220 VAC, 6-digit, non-resettable.
Enclosure Rating	NEMA 4x

All Adenus Technologies Control Panels are quality tested, certified, and UL certified.
