

AT-STEG-4

Complete STEG System Components

24" Diameter Riser, Lid and Adhesives:

Durable Rigid PVC Riser and 24" Diameter Polycarbonate Lid with a wheel load rating of 8,000 lbs. Stainless Steel hex-cap bolts included (riser heights available up to 13'). Includes necessary adhesive for adhering riser to tank opening.

4" Gravity Effluent Filter:

This 4" diameter gravity effluent filter is designed for flow rates up to 800 gallons per day, and filters effluent from the "clear zone" of the septic tank to less than 1/8 of an inch, with over 2-1/4 square feet of polypropylene filter mesh.

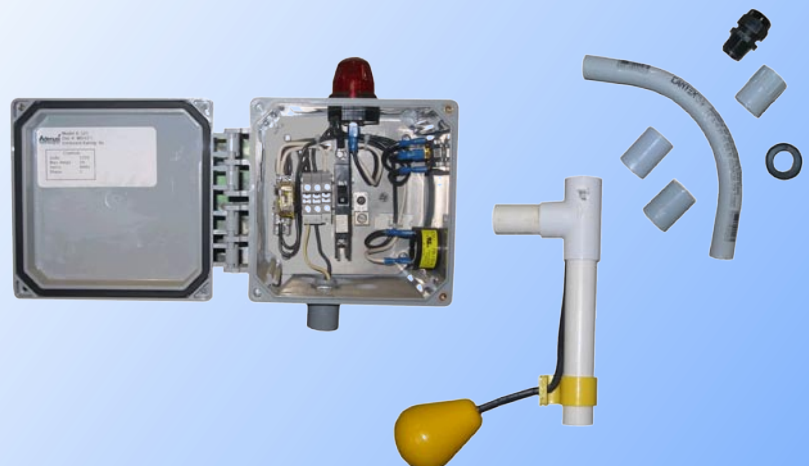

Sewer Relief Valve:

The Sewer Relief Valve is designed to prevent sewage backups in the home. Check with your utility provider to see if this is required on your system.

Adenus Technologies GF1-ADT Alarm Package:

The GF1-ADT Alarm Package* includes a 50' normally open high-level alarm switch, a 110v Adenus Technologies GF1 Control Panel, float collar and tree, and all of the necessary electrical fittings that ensure a watertight seal around your electrical components.

*GF1 Package not included with standard AT-STEG-4 System
